**MOTION CARRIED: 7-0-0**

## **V. PERSONAL APPEARANCES**

### **A. Compliance Officer Reports**

- Report from Compliance Officer Eric Percy:

CO Percy discussed several ongoing cases and investigations he had been involved with over the last month, including a Columbus pharmacy burglary which had received some news coverage in Central Indiana. Mr. Percy assisted State and local authorities in the investigation as it related to the pharmacy practices, security, and requirements. He also assisted the FBI and Indiana State Police in a recent investigation involving a pharmacy burglary in Oakland City.

As to ongoing projects, Mr. Percy will be stepping into the shoes of Ms. Baumgartner and will monitor and assist with the continued upgrades and use of the MCheck Inspection System (more updates to come by the end of the year). The Compliance Team continues to work out any ongoing issues with the system as they move into their fifth month of use. Mr. Percy is also going to start assisting with the development of a strategic plan for addressing ongoing e-prescribe issues.

With respect to inspections, his month was mostly filled with routine inspections with one exception, the Deaconess Cancer Center for which he did the opening inspection. He noted that the Hospital had made several nice improvements and advances with the use of technology and remote system review and entry, and could potentially serve as a model to other Hospitals. Board members Wall and St. Angelo requested that CO Percy arrange a visit from them to do a site review to learn from Deaconess's experiences.

- Report from Compliance Officer Zaneta Nunnally:

CO Nunnally had a busy month with respect to CSR and HME inspections. Specifically, she spent a good amount of time with Purdue University and MWI Veterinary Supply Company to inspect their facilities, thus allowing the facilities to meet ongoing operational goals and business opening timelines. Ms. Nunnally is also currently working with one of the Wal-Mart Distribution Centers regarding their CSR and changes to their security and storage practices re: drugs and controlled substances. She also attempted (and was successful) in clearing out a backlog of remodel applications that had been pending for some time.

With respect to investigations, Ms. Nunnally is involved in several ongoing investigations. One involving Clarian (IU Hospital) and others where she is working actively with the IMPD Prescription Fraud Unit. CO Nunnally also provided the Board with a breakdown and follow up from the last meeting regarding the closing, reopening, and inspection of the NorthShore Pharmacy. She along with CO Thomas, per Board instructions, had shut down and then reopened the pharmacy following concerns and evidence submitted to the Board at its August meeting of improper activity. The pharmacy was reopened under a new qualifying pharmacist and the investigation of the prior activity was turned over to the Attorney General's Office for further action.

- Report from Compliance Officer Tim Thomas:

CO Thomas reported that he had a regular month and did not file any consumer complaints but that he anticipates that changing in the coming months. He assisted CO Nunnally with the closing and inspection of the NorthShore Pharmacy (see details above). He also received several DEA Form 106s which he will begin investigating over the course of the next month.

Mr. Thomas wrapped up with a question from a long term care facility he inspected. The question related to Medicare Part D and the maximum duration of a drug order and whether the Board had provided a definition for how long a drug order is valid. There is a defined period for a prescription, but the question is less clear for drug orders (specifically, for a physician long term care order). The Board requested that the staff conduct some research as appropriate to answer this question.

## **B. Richard Hinchman, MD**

Dr. Hinchman agreed to appear before the Board to provide detail and explanation of his practice and procedures. Attorney Michael McMains (counsel for the Pharmacist Recovery Network (“PRN”)) appeared with Dr. Hinchman to address any privacy or confidentiality issues. As background, Dr. Hinchman is the Medical Review Officer (“MRO”) for PRN. Dr. Hinchman also serves as the MRO for the Indiana Nursing Board and State Prison System. Dr. Hinchman is a critical component of the PRN system and provides ongoing evaluations of the individual impaired professionals that work and sign contracts with PRN. His recommendations form the basis of several Board decisions regarding impaired pharmacists.

The Board had requested Dr. Hinchman to appear because of several ongoing issues regarding process that were continuing to come up in past hearings, and because several of the members had not personally met him previously. Dr. Hinchman provided a detailed packet and presentation that discussed his processes, background, expertise, and ultimate methodology for evaluating patients. He addressed several of the Board’s questions regarding an impaired professional’s ability to work and the role that PRN plays in this process.

He walked the Board through the various agreements that the impaired professional is required to sign and adhere to, as well as the multiple group meetings he requires them to attend as a part of their ongoing recovery. He explained the different drugs he prescribes and uses with his various patients. At the lunchtime presentation, Dr. Hinchman gave a detailed presentation of the various interactions drugs and alcohols have on the nervous system and brain. He discussed the nature of addiction and the disease and why impaired individuals behave the way they do.

The presentation and appearance were extremely helpful to the Board and provided a solid basis for evaluating recommendations made by Dr. Hinchman before making final disciplinary decisions on impaired pharmacists, or before agreeing to the modification of probationary terms.

## **C. Indiana State Police**

The Indiana State Police appeared by invitation from the Board to present their recent work regarding combating meth abuse in Indiana, and to comment on and discuss future partnerships with the Board regarding tracking and sale of PSE products used to manufacture meth. Both Major Larry Turner (also a standing member of CSAC) and Sergeant Niki Crawford (heading ISP’s Meth Unit) of the State Police presented the ongoing statistics related to busts made across the State and the number of newly discovered labs. In general, Indiana is ranked number two in the country for the number of labs discovered and seized. Meth is an increasingly larger and more expensive problem in the State of Indiana and is requiring the dedication of more resources from across several state agencies. ISP, along with the Board, is interested in proactively attempting to curb the production of meth

through better controlling and monitoring the sale of PSE products. ISP has invested in an intelligence database system similar to what is currently being used in the State of Tennessee. Their current focus is on the ability to follow trends and use reported data to go after smurfers and other individual producers/distributors of Meth and illegal purchasers of PSE. Also discussed were the new methods for making meth in increasingly smaller containers, making detection more difficult and widespread production easier to conceal and take place. The Board moved to continue working with State Police to proactively curb the illicit sale of PSE products in a pharmacy setting, and wants to dedicate whatever resources are available to assist in state-wide efforts.

#### **D. Paul Leamon – Wellfount Pharmacy**

Mr. Leamon (CEO for Wellfount) appeared before the Board to receive approval of a pilot program for operating what amounts to an “unmanned” remote pharmacy in one of its client long term care facilities. Appearing with Mr. Leamon were Ms. Suzanne Hall (Qualifying Pharmacist for Wellfount’s central fill pharmacy in Indianapolis) and Tracy Wilson (representing Talyst; Wellfount’s technology and systems provider). The appearance was arranged following several onsite visits and consultations between members of the Board and Board staff and staff from Wellfount Pharmacy. To summarize, the Talyst machine utilizes technology to package drug orders in individual unit dose/compliance dose packaging with all the appropriate patient information and bar codes attached to ensure safety, accountability, and proper labeling. The machine is filled by appropriate pharmacy staff and the orders are reviewed by pharmacists before being downloaded to the machine prior to dispensing, which later allows the appropriate facility staff to access and administer the medications.

Incorporated into these minutes are the policies and procedures and other documentation provided by Wellfount management concerning the operation of the unit and other security procedures being implemented by the pharmacy. This is outside what the Board has traditionally/explicitly allowed under the pharmacy rules, and Wellfount has asked the Board to approve their system under a pilot program. The program will include a six month review, along with audits of the system to ensure accuracy and to determine what prevalence of errors exists, if any. The unit will operate under the Wellfount Pharmacy permit, but will operate under its own CSR to ensure proper accountability and security for any controlled substances. This is necessary to satisfy the location specific requirements concerning CSR laws and regulations. The pilot program will operate at a long term care facility in Lafayette, Indiana (Willner) and will undergo inspection by one of the Board’s Compliance Officers before beginning operation.

Regarding the presentation, several Board members asked questions related to security, system access, and Wellfount having the proper documentation and specificity as it relates to access and control. The Board requested several other changes be made before beginning operation including:

- Availability of 24/7 support for the unit during the hours the central fill pharmacy is closed.
- Make more specific who the designee for operations pertaining to the unit is.
- Clarify that the Qualifying Pharmacist of Wellfount is ultimately responsible for the operation of the remote unit.
- Ensure that orders given over the weekend (or any other time) are cleared through the main pharmacy system and reviewed prior to dispensing.
- Establish contingency plans in the event the unit fails to operate properly.

The Board also requested that Wellfount appear again before the Board following six months of operation with the new system to report on how it has worked out. Member St. Angelo made a motion to approve the system pending all the recommended changes, seconded by Member Wall; **Motion carried 7-0-0.**

#### **E. Kristin Briers – IDEM Unwanted Medication Workshop**

The Board, at the invitation of the Indiana Department of Environmental Management (IDEM), will be participating in an Unwanted Medication Workshop on Thursday November

19, 2009. The program is being funded by a SEA Grant from the EPA, and will include speakers from the solid waste community, pharmacy/medical community, and the regulatory/law enforcement community. The program will focus on ways to educate the public and pharmacy community and how to deal with unused and/or unwanted medications. This will include how to safely dispose of medications, where they can be taken, and various other safety and public health issues.

Both Board Director Wickizer and Compliance Officer Pearcy will participate as speakers in the workshop, and have assisted in putting together the Agenda with IDEM staff. The Board will assist in getting word of the workshop out to the pharmacy community and will also be adding materials to the Board of Pharmacy webpage to help educate practitioners and the public about disposal methods for prescription drugs and unwanted medications.

(As a side note, the Indiana Pharmacist Alliance will also be participating, and there will be continuing education credit available for pharmacist and pharmacy technician attendees.)

#### **F. Sandra Martinez – Pharmacy Technician Application**

Ms. Martinez appeared before the Board because of positive responses on her pharmacy technician application. Ms. Martinez admits that she is an alcoholic and has had alcohol abuse problems in the past. Specifically, she has a July 2004 felony conviction for DUI. The conviction was a felony because it was her third in a series of DUI convictions and accordingly upgraded from a misdemeanor. Also, as a result, she lost her drivers license for a period of ten years. Ms. Martinez admitted she had a problem and disclosed this fact to her employer, Walgreens, and also admitted herself into a voluntary treatment program. She went through an intensive outpatient treatment program and was placed on a five year monitoring program ending in October this year. As a part of the monitoring program she was required to undergo random screenings, all of which came back negative, and Ms. Martinez has stipulated that she has been sober for a period of five years. Her felony conviction was recently reduced to a Class A Misdemeanor as a result of her successful completion of the program. Outside of these charges, Ms. Martinez has no other criminal record and regularly attends AA meetings. She is currently working as an assistant manager at Walgreens, and again, her employer is fully aware of her history. She is before the Board today because she needs a pharmacy technician certification to become an executive assistant manager within the Company. Board Member Cover recused himself from participation or action on this application because Ms. Martinez works in one of stores he oversees. Member Wall made a motion to approve the application, and the motion was seconded by Member St. Angelo. **Motion Carried 6-0-1.**

#### **G. Allison Cruzan – Pharmacy Technician Application**

Ms. Cruzan was required to appear before the Board because of a positive response on her pharmacy technician application. While a freshman at Purdue University, she was charged with a PI (public intoxication) but given the opportunity to participate in a diversion program. Ms. Cruzan agreed to participate in the program; she attended the class, and was put on probation. This was her first and only offense. If she completes her probation successfully and continues to have no other criminal offenses, the offense will come off her record. This should occur this November, again assuming Ms. Cruzan successful completion. Also, Ms. Cruzan does have a current technician job lined up and her employer is aware of her situation. Accordingly, Member Wall made a motion to give the applicant a probationary pharmacy technician-in-training permit and required her to keep the Board informed of all relevant facts, report any relapses, and to appear before the Board again in January 2010. The motion was seconded by Member St. Angelo. **Motion Carried 7-0-0.**

#### **H. Samantha Phillips – Pharmacy Technician Application**

Ms. Phillips was required to appear before the Board as a result of the Board's decision at a prior meeting, in which they asked her to go back and compile the remaining information necessary for the Board to make its decision. Ms. Phillips brought back all the information concerning her treatment and probation. She is currently employed by Walgreens, who is aware of her current circumstances. She will come off of criminal probation in May of 2010.

Member Williams made a motion to approve the application and give the applicant a probationary pharmacy technician certification. Her Board probation will coincide with her criminal probation and she can petition for removal of the probationary status upon successful completion of her criminal probation. In the meantime, she will be required to start making quarterly appearances starting in January, is to keep the Board informed of the relevant facts concerning her case, and to keep the Board informed in the event of any relapses. The motion was seconded by Member St. Angelo. **Motion Carried 7-0-0.**

#### **I. Progressive Hospital (Ft. Wayne LTAC) – Ken Stancik; Re: Approval of Policies**

Progressive Hospital appeared before the Board to request approval of its remote review policies and practices. Progressive is a long term acute care hospital (it is part of a chain of several facilities), and the facility in question here is located in Ft. Wayne, Indiana. The facility was represented by its qualifying pharmacist Ken Stancik. Mr. Stancik submitted all of the relevant policies and procedures for Board review and approval. This situation came about as a result of an inspection earlier this summer where the pharmacy was not implementing procedures to ensure orders were reviewed within 24 hours (as required by our pharmacy regulations). The pharmacy subsequently explained that with the infrequency of changes and/or orders received during hours when the pharmacy was not in operation, that it was not effective and/or cost efficient to have a pharmacist onsite to handle those situations. Accordingly, all orders are being reviewed remotely through a secure network allowing current facility pharmacists to handle orders that come in during hours when the pharmacy is not open. The Board had no objections and approved Mr. Stancik's policies and the practices taking place at the Progressive Hospital Pharmacy.

#### **J. College of Pharmacy Updates**

The Deans from the pharmacy schools at both Butler and Purdue University provided the Board with an update on the status of the programs at their respective schools based on questions submitted to the Deans in the advance of the meeting.

- i. Dean Mary H. Andritz, Pharm.D., Butler University
- ii. Dean Craig K. Svensson, Pharm.D., Ph.D., Purdue University

The schools also made several requests in response to the Board's offer to assist their programs. They asked for assistance with the following:

- Incorporate into intern/extern discipline orders from the Board a requirement for the student to inform the individual's school of their discipline and why they were required to appear before the Board. They also wanted to look at having a requirement that the school affirms their knowledge of their student's discipline. The relevant point of contact at each of the individual schools would be the senior associate dean at each of the school.
- Assist and/or come up with a new method to ensure that first year pharmacy students are permitted as early as possible so they can begin participating in the new practical experience requirements required by ACPE. The schools would like all their students to be capable of fulfilling these IPPE requirements and so they need to be registered interns as soon as possible (before school starts if possible). The Board asked for staff to set up a meeting between the two schools to discuss how the Board can be of assistance, bearing in mind the safety and practice constraints will not be relaxed (nor the enrollment requirements).

#### **K. Butler Student Clinic**

Students from the Butler University School of Pharmacy were invited to appear before the Board to present a unique program they recently started with the Indiana University School of Medicine. A student group in December 2008 wanted to work in the local community to help provide free pharmacy and prescription drug resources for members of the community in need of clinic/pharmacy access. That effort resulted in what is today the Butler University

Community Outreach Pharmacy (“BUCOP”). BUCOP operates in conjunction with Indiana University Student Outreach Clinic, and is overseen both by practicing doctors and pharmacists. The program is the first of its kind in Indiana that is sponsored by one of the pharmacy schools. Prescriptions and medications are provided for free and are dispensed under physician dispensing rules, but pharmacists and advisors are on site to provide additional support and education. The Clinic opened its doors in August 2009 and currently operates on the weekends out of the Neighborhood Fellowship Church located in the Near Eastside community of Indianapolis. The Board was impressed by the efforts of the students and asked for them to come back before the Board in April 2010 to get a recap on how their year went and to present their new upgrades to the program.

## VI. MISCELLANEOUS

- Board Director Report – Director Wickizer discussed the following topics currently under review by staff and other special projects that are in the pipeline:
  - Rulemaking discussions will be carried forward in the October and November meeting due to time constraints.
  - Staffing – Interviews have been scheduled for the vacant compliance officer and case manager positions. New hires are anticipated to start in early October.
  - E-Prescribe work group is being put together and will begin to report on progress and development of “strategic plans” in the coming months.

## VII. OLD/NEW BUSINESS

There was no old/new business discussed at this meeting.

**D. In the Matter of the Indiana Pharmacist License of Dennis Winternheimer, RPh**

<b>License No.</b>	26012310A
<b>Administrative Cause No.</b>	2006 IBP 0033
<b>Regarding</b>	Order to Show Cause

<b>Parties Present</b>	Casi J. App
<b>Counsel Present</b>	Pamela Siddons, Counsel for the Respondent Mark Mader, Deputy Attorney General for the State of Indiana
<b>Participating Board Members</b>	Del T. Fanning, R.Ph., President Lora N. R. Williams, JD, Vice President ( <i>Consumer Member</i> ) Steven Anderson, R.Ph., Member William J. Cover, R.Ph., Member Winnie Landis, R.Ph., Member Sara St. Angelo, PharmD., R.Ph., Member Donna S. Wall, PharmD., R.Ph., Member
<b>Witnesses for the Petitioner/Respondent</b>	None
<b>Witnesses for the State</b>	None
<b>Case Summary</b>	The Respondent was involved with a diversion case and is facing both criminal charges and this action against her certification. The result of her criminal charge was a sentence of 90 days house arrest and two years of probation. Respondent was addicted to controlled substances and illegally diverting them from her employer. A precipitating factor was Respondent's Krohns disease. The State, in the Settlement Agreement, is asking that the Respondent's certification be placed on indefinite suspension for a period of two years, after which she may apply for reinstatement. This requirement was also a condition of her criminal probation as well. Both parties waived closing arguments. Member Williams participated in the Settlement conference and signed a statement to that effect.
<b>Board Action</b>	A motion was made by Member St. Angelo and seconded by Member Wall to approve the Settlement Agreement between the parties.
<b>Vote</b>	Motion Carried <b>6-0-0</b>

#### **E. In the Matter of the Indiana Pharmacist License of J. Lynne Freiburger, RPh**

<b>License No.</b>	26011641A
<b>Administrative Cause No.</b>	2009 IBP 0022
<b>Regarding</b>	Default Hearing
<b>Parties Present</b>	Patricia L. Hotseller
<b>Counsel Present</b>	Jackie Butler, Counsel for the Respondent Mark Mader, Deputy Attorney General for the State of Indiana
<b>Participating Board Members</b>	Del T. Fanning, R.Ph., President Lora N. R. Williams, JD, Vice President ( <i>Consumer Member</i> ) Steven Anderson, R.Ph., Member William J. Cover, R.Ph., Member Winnie Landis, R.Ph., Member Sara St. Angelo, PharmD., R.Ph., Member Donna S. Wall, PharmD., R.Ph., Member
<b>Witnesses for the Petitioner/Respondent</b>	None
<b>Witnesses for the State</b>	None
<b>Case Summary</b>	The issue in this case involves diversion of pain medication from the Respondent's employer. She has criminal charges pending (D Felony) but has not been convicted yet. Respondent has admitted to an addiction to vicodin. Respondent is currently cooperating with the Marion County authorities on her criminal matter and has entered into a Settlement Agreement with the State on the issue of her certification. Per the Agreement, she faces indefinite suspension and is required to find and work with support groups to evidence her ongoing recovery before attempting reinstatement from the Board (including submission of an addictionology report). Member Williams participated in the Settlement conference and signed a statement to that effect.
<b>Board Action</b>	A motion was made by Member Cover and seconded by Member St. Angelo to approve the Settlement Agreement between the parties.

<b>Vote</b>	Motion Carried <b><u>7-0-0</u></b>

<b>Witnesses for the Petitioner/Respondent</b>	None
<b>Witnesses for the State</b>	None
<b>Case Summary</b>	The case involved admitted diversion by the Respondent from his place of employment. State and the Respondent reached an agreement in a Settlement Conference. The Agreement was presented to the Board and included the indefinite suspension of the Respondent's pharmacy technician certification. Board Member Wall certified to the Board that she felt the Agreement was in the best interests of the State at this time.
<b>Board Action</b>	A motion was made by Member Anderson and seconded by Member Cover to accept and approve the Proposed Settlement Agreement.
<b>Vote</b>	Motion Carried <b><u>6-0-1</u></b> (Board Member Wall participated in the Settlement Conference and abstained from voting on this matter.)

#### **G. In the Matter of the Indiana Pharmacy Technician Certification of Teresa Moore**

<b>License No.</b>	67008990A
<b>Administrative Cause No.</b>	2006 IBP 0046
<b>Regarding</b>	Petition to Withdraw Probation
<b>Parties Present</b>	Teresa Moore
<b>Counsel Present</b>	Respondent was not represented by counsel Heather Kennedy, Deputy Attorney General for the State of Indiana
<b>Participating Board Members</b>	Del T. Fanning, R.Ph., President Lora N. R. Williams, JD, Vice President ( <i>Consumer Member</i> ) Steven Anderson, R.Ph., Member William J. Cover, R.Ph., Member Winnie Landis, R.Ph., Member Sara St. Angelo, PharmD., R.Ph., Member Donna S. Wall, PharmD., R.Ph., Member
<b>Witnesses for the Petitioner/Respondent</b>	None
<b>Witnesses for the State</b>	None
<b>Case Summary</b>	The Respondent had appeared before the Board in June and was requested to appear before the Board again on her own petition when she had satisfied the final terms of her probation to the satisfaction of both Board staff and the Attorney General's Office. Respondent filed this motion based on that request and provided testimony on her own behalf. Based on the testimony of the Respondent and following questioning from the State's attorney, it appears Respondent satisfied the terms of her probation and was qualified to have that probation lifted with no objection from the State.
<b>Board Action</b>	A motion was made by Member Anderson and seconded by Member St.

	Angelo to remove the probationary status from Respondent's pharmacy technician certification.
<b>Vote</b>	Motion Carried <b><u>7-0-0</u></b>

#### **O. In the Matter of the Indiana Pharmacy Technician Certification of Jana Ratliff**

<b>License No.</b>	67003759A
<b>Administrative Cause No.</b>	2008 IBP 0053
<b>Regarding</b>	Order to Show Cause
<b>Parties Present</b>	Jana Ratliff
<b>Counsel Present</b>	Respondent was not represented by counsel Heather Kennedy, Deputy Attorney General for the State of Indiana
<b>Participating Board Members</b>	Del T. Fanning, R.Ph., President Lora N. R. Williams, JD, Vice President ( <i>Consumer Member</i> ) Steven Anderson, R.Ph., Member William J. <b>Witnesses for the Petitioner/Respondent</b>	None
<b>Witnesses for the State</b>	None
<b>Case Summary</b>	The Respondent came before the Board based on her failure to appear at previously scheduled probationary appearances. Based on testimony from the Respondent and questioning from the State's attorney, it appears the Respondent was genuinely confused about the requirements for probationary appearances and employer reports. Respondent was instructed to seek guidance from Board staff in understanding the requirements. Respondent also testified that she has had difficulty in obtaining an addictionology report and paying her fine. While Respondent is currently employed and in good standing with a Meijer Pharmacy (a copy of her previous order was signed by her employer as required), she is experiencing a period of financial hardship. Based on the above facts, the Board decided to amend the terms of her original probationary order to allow Respondent to pay the fine at some point before her probation was lifted and to obtain some form of an addictionology report (it was determined a report from TARA was acceptable) by the November Board meeting to be presented during her probationary appearance.
<b>Board Action</b>	A motion was made by Member Anderson and seconded by Member Cover to amend the original probation order on Respondent's pharmacy technician certification.
<b>Vote</b>	Motion Carried <b>7-0-0</b>

## **IX. PERSONAL APPEARANCES CONTINUED**

- Hall Render – Representing St. Vincent Hospital**

St. Vincent Hospital, represented by their attorneys from Hall Render (Clifford A. Beyler and Jennifer F. Skeels), requested an appearance before the Board to ask for guidance regarding the hospital's plan for their new infusion therapy practice, that would act as an outpatient department of the hospital, yet retain its independence (see the materials provided for more specific detail). In general the question was whether or not the practice was medicine or pharmacy, and whether the practices as described would violate current pharmacy laws and regulations. That is, the Board is ultimately being asked to opine on whether or not the Center's practice would constitute the unlicensed practice of pharmacy as contemplated under the scenario as they have laid out in their materials. (Mr. Beyler submitted additional materials for the Board to review at the meeting and those materials are incorporated into these minutes by reference and available from Board staff.)

Specifically, St. Vincent is in the process of establishing a separate infusion therapy center on the same campus, but operating distinct from the hospital, yet sharing the same patient population. In their original scenario, St. Vincent would like to take advantage of the efficiencies of using the Hospital's pharmacists to advise on the practices being conducted in their infusion therapy center. The change in traditional practice is an attempt by the hospital and physician groups to take

advantage of resources already available to the hospital, and make them available without establishing an independent pharmacy (that would require additional staffing and permitting). Drugs being developed for the infusion therapy center would be done under the practice of physician dispensing, but also utilizing the expertise of the hospitals pharmacy and staff under the scenario they describe. In response, the Board commented that they think the Center will need to have consultant pharmacists on an independent contract to make this scenario work, and that it will ultimately be the physicians who are individually responsible for the practices taking place. Likewise, the Board believes the drugs will need to be ordered on the physicians own DEA numbers and not the Hospitals. In order to protect the pharmacist, the Board feels that under the current regulations and laws that the pharmacist would have to act as an agent for the doctor, and could not be a hospital pharmacy employee. They did not approve of the intermingling of resources.

While the Board did not approve of the entire plan, and disagreed with some of the processes regarding the use of the Hospital's pharmacy department and staff, they did agree that an institutional permit would not be needed if the physicians ordered the drugs themselves, prepared them independently, and relied on pharmacy knowledge through and independent contracted pharmacist.
